

SCOUTING REWARDS

Effective from January 14, 2019

TokenStars platform creates an efficient system of scouting, funding and further support of the talented athletes.

Scouts, located all over the world, bring applications from talented juniors and receive rewards in tokens: ACE for tennis, TEAM for other sports (hockey, esports, poker, football).

Scouts are strongly motivated to bring the most ambitious players because their compensation depends on "how far" the submitted application progresses in the selection. The biggest reward is received for the player who signs the contract with TokenStars.

	TALENT SCOUTING FLOW	SPORTS	
		TENNIS	POKER
1.	Submission of Talent application at the TokenStars platform	\$50 in ACE	\$10 in TEAM
2.	Successful assessment of the Talent by sports experts	\$100 in ACE	\$20 in TEAM
3.	Passing Community Voting	\$50 in ACE	\$20 in TEAM
4.	Signing the Talent support contract	\$400 in ACE	\$100 in TEAM
	TOTAL	\$600 in ACE	\$150 in TEAM

Scouting rewards will be paid in ACE or TEAM tokens according to the token price on [OKEx](#) or [Bit-Z](#) respectively.

Talent applications can be submitted either by the scout or by the player on his/her own behalf.

- If the talent application is submitted by independent scout, rewards will be paid in separate parts, once the application successfully passes each of Talent Scouting Flow stages;
- If the talent application is submitted by the player on his/her own behalf, a reward will be paid all at once when the application has passed all the Talent Scouting Flow stages (if the talent support contract is not signed, the player shall not be entitled to receive any reward).

This document is an integrated part of Rewarding Policy contained in [Terms of Use of Website](#).
