TokenStars April Report:
Harder, Better, Faster, Stronger

Spring is a great time to start something new. Therefore, in April we received new applications for the scouting module in both the tennis and poker business areas. You can also leave your application or tell your friends and get a reward for it. Read about this and other news in our traditional digest.

- **Special item in the e-comm module**
- **Application in the poker stream**
- **Tennis player applied**
- **NBA matches in the predictions contest**

Special item in the e-comm module

For our community, we have prepared a special lot — boots from a young but promising CSKA player.

On the 8th of April Vadim Karpov scored his first goal in official matches for CSKA. On the day of the match against Arsenal Tula, he was 18 years old and 268 days old. Vadim has become **the youngest CSKA defender** to score goals in official matches since 1936.

On this occasion, we are putting Vadim's boots **on sale.** The proceeds from the sale will be directed to a charitable foundation of the buyer's choice.

Application in the poker stream

Ionut Dorel Tuia from the United Kingdom applied to our program for professional poker players. He had some outstanding winnings on PokerStars and the biggest one was $57,679.

Player's statistics:
ROI - 49.2%
ITM - 19.7%
Profit - $55,292

We are analysing his profile to decide whether we should proceed with a contract with him or not.

Take your chance to submit prospective poker players to the **TokenStars** Scouting system and get a **reward** in **TEAM** tokens! If you have someone in mind, you can send them our presentation in which we included all the advantages of our offer for the poker players.

Tennis player applied

This month we received an application from a young tennis player from Turkey — Kivanc Bedir. Kivanc is only 13 years old, so he doesn't play ITF tournaments.

However, he already shows results in the Under 14 category. In April he reached the quarter final at Cukurova Cup in Adana (Turkey).

NBA matches in the predictions contest

In April, our choice settled on a sport that is rare in our prediction contests — basketball. For a whole week, the participants made predictions for the matches of the brightest basketball league in the world — the NBA.

The prize fund was **10,000 TEAM.** But only the **five** best participants got the share.

Distribution of tokens:
First place - 3800 TEAM
Second place - 2550 TEAM
Third place - 1750 TEAM
Fourth place - 1150 TEAM
Fifth place - 750 TEAM
