

## TokenStars Opens New Horizons For Players

Our core business is investing in prospective players, growing their fan audience and receiving commissions from their future income and advertising contracts. More and more players join TokenStars platform and we're glad to cooperate with each of them.

- ✓ **26** talented players joined Scouting module.
- ✓ **5** sports PRO's signed contract with TokenStars.
- ✓ TokenStars signed **6** promising players from scouting system.
- ✓ **8** athletes currently negotiate contract details.

Scouting module shows excellent results: since its launch, great scouts and 26 players all over the world joined TokenStars platform. First scouting vertical was tennis and it immediately started to attract the attention: **15** promising juniors joined the platform, **73%** already moved to the voting stage and on average received support from **68%** of token holders. We continue the negotiations with **8** of tennis players, which were supported by the community and signed a contract with **2** promising athletes: [Melissa Boyden](#) and [Valeriya Olyanovskaya](#).

Launch of poker vertical was a big step forward in Scouting module development. We decided to prioritize and dig into this sports because the poker industry perfectly fits the idea of talent investments and players can generate income and show results in much shorter terms. Of the **11 players** who have joined the platform, **8** players were already reviewed by TokenStars experts, **4 of them** received community support and signed a contract with us.

TokenStars provides an opportunity for scouts, located all over the world, bring applications from talented players and receive rewards in **ACE** and **TEAM** tokens.

The cooperation with promising players will grow in long-term clients for whom TokenStars will attract sponsors and advertisers and earn a commission in tokens. It allows prospects to grow social capital from the beginning of their careers.

One of the key TokenStars business development directions is the representation and marketing promotion to established pro athletes and media personalities that are already attractive to sponsors but were overlooked by traditional agencies. In an era when professional career development highly relies on the ability to attract social capital and access funding sources, stars need more ways to get discovered by the audience and sponsors.

**MODULE**

# PLAYERS

TokenStars supports professional and junior talents. "Players + Supported Talents" module represents TokenStars' core asset - athletes, who joined and actively participate in platform's activities. Through our ecosystem token holders can connect with them: join players' fan clubs and earn ACE & TEAM tokens by completing bounty tasks, purchase exclusive activities with the stars, buy merchandise, promote athletes to bring in new brands and sponsors.

We're constantly working on expanding our clients' portfolio and pleased to have such great players as [Veronika Kudermetova](#), [Elitsa Kostova](#), [Marius Copil](#), [João Klauss De Mello](#) and [Otávio Edmilson da Silva Monteiro](#) on board. We're creating new opportunities and tools for players to attract fans and grow their influencing potential, for example, they can create their own fan club in the [Bounty Fan](#) module.
