7 March Wonders of TokenStars

This March we were focused on expanding our clients' portfolio, creating interaction between players and their supporters, and increasing the involvement of our community.

- ✓ Bounty Fan Club released.
- ✓ Football star successfully launched the first bounty contest.
- ✓ 3 new signed contracts with scouted players.
- ✓ 2 promising talents receive a positive response from the community.
- ✓ 3 signed tennis players updated their career high.
- ✓ Sports predictions contest attracted new participants.
- ✓ ACE and TEAM smart contracts were re-audited.

1. Bounty Fan Club released

March'19 was marked with one of the most important tech and business updates on TokenStars platform – launching the **Bounty Fan Club** module. This module is designed to create interaction and desired engagement between stars, their followers and ACE & TEAM token holders.

By launching personal Bounty Fan Clubs players receive new opportunities to attract fans and grow their influencing potential. On the other hand, platform users can get the desired involvement, take part in unique activities and earn ACE or TEAM tokens for promoting and completing the tasks from their favorite sports stars. With the launch of this module, TokenStars user can become a fan, scout or promoter in just a few clicks.

2. First bounty contest from sports PRO

Immediately after the launch of the module, the first **bounty contest** appeared in it. The honor to provide the premiere task fell to Klauss — FC LASK striker, champion and top scorer of Finland. **Klauss** invited our users and his followers to create a LASK matchday preview with his photo and compete for a reward of 20,000 TEAM tokens. It is nice to see that the recently started cooperation with such a great football player is already yielding the first results and that our community has been enthusiastic about this campaign.

Description

On the 7th of April, my team LASK will play against FC Red Bull Salzburg in the 24th day of the Austrian Bundesliga.

Two major Austrian teams face each other - and I created a special contest for this event!

Design a matchday preview poster with my photo as a LASK player and match details (time, date, stadium, opponent).

To participate, please sign up on www.tokenstars.com, click "join" on this activity and send your pics to klauss@tokenstars.com. Please, do not forget to add TokenStars logo on a photo.

The contest ends on Thursday, April 4, 7:00 PM (CET) - catch your chance!

On Saturday I will choose the one I like the most and will post it next before the game. The author of the best picture will be tagged on the photo and will receive 20,000 TEAM tokens. You can find the example of the poster attached. Let's go!

3. New players on board

In March TokenStars signed contracts with three promising players, which joined our platform through the Talent Scouting module: Tobias Shaaf, Kristaps Zusevics, and Valeria Olyanovskaya.

Tobias Shaaf

Tobias is a poker pro from Germany. He has been playing professionally for over 10 years, including participating in live international tournaments all over Europe. His average overall ROI 69% and average ROI for 2018 is almost 300%.

Excited to join @TokenStars platform, that will stake me and help to reach new heights in poker!! 🎉🌟

Kristaps Zusevics

Professional poker player from Latvia. His ITM is 30%, average ROI 52% and he cashed in total over \$100,000 in less than a year playing low- and mid-stakes. According to the experts, he has big potential and moving to high stakes is just a question of time.

[Valeriya Olyanovskaya](#)

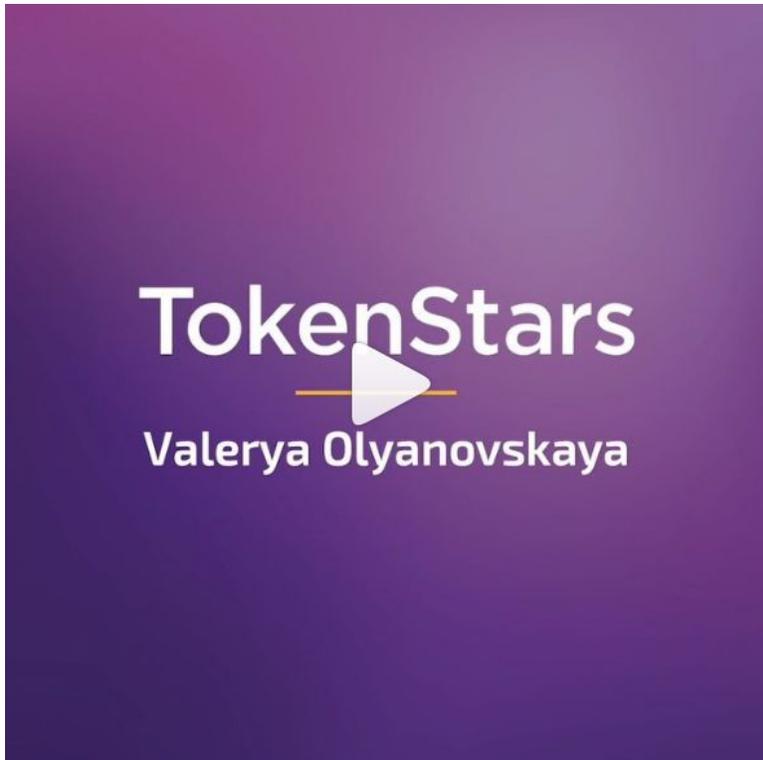

Valeriya is a talented tennis junior from Russia. She's already in the top 200 ITF and plans to climb even higher. Last year she won five tournaments, including ITF Grand Prix W. Fibak both in singles and doubles. This year she's already won J3 Almetyevsk Cup and J1 Kazan Cup in doubles. The experts have noted her strong forehand, and powerful serve with good precision. You can watch her training and signing a contract with TokenStars in [this video](#).

The image shows a player profile card for Valeriya Olyanovskaya on the ACE platform. On the left is a photo of her in a white tennis outfit, swinging a racket. The right side of the card contains the following information:

VALERIYA OLYANOVSKAYA		
JUNIOR		
AGE 18	WEIGHT 55KG	HEIGHT 178CM
RESIDENCE Moscow, Russian Federation	ITF RANKING 206	SCOUT ID: 402

At the bottom of the card, there is a grey button with a green checkmark and the text "CONTRACT SIGNED". In the top right corner of the card, there is a blue "ACE" label and a small Facebook icon.

4. Scouting keeps work at a good pace

Last month 2 new players were approved by the TokenStars experts and went to the voting stage. Both **Giorgos Tsouvalas** and **Arnaud Sewanou** received the community support and we'll continue the negotiations with them. We're glad to see that ACE and TEAM token holders show initiative and share their opinions: the number of tokens, participated in the voting, is constantly increasing — over the past month, about 30,000 tokens more participated in each voting.

5. Players conquer new heights

We constantly monitor the progress of signed players and sincerely rejoice in their success. On March, 17, **Veronika Kudermetova** won the big tournament in

Mexico — WTA Guadalajara 125K. This is the biggest tournament she won so far. This victory influenced her position in the top-100 WTA and helped update her career high: at this moment Veronika ranks 80 in WTA singles and 52 in WTA doubles.

Also last month, both our signed tennis juniors **Melissa Boyden** and **Valeriya Olyanovskaya** achieved their career high — Melissa became #175 and Valeriya took #151 ranking among top juniors ITF.

6. Predictions contest is successfully held

The beginning of spring 2019 in many directions was associated with football in Tokenstars. Our monthly contest is no excuse. From 11 to 18 March, we held a Football Week in Sports Predictions module (https://t.me/TokenStars_Predictions_bot). We chose the most interesting football matches, and we hope that each of **3,800+** users participated in this contest enjoyed it. As usual, 100 winners shared the prize fund of 5,000 tokens. The winner of this Football Week scored almost **3000 STAR** points and received **500 TEAM** tokens.

7. Smart contracts successfully re-audited

This March ACE and TEAM smart contract were re-audited by Callisto Security Audit Department. Specialists confirmed that the audited smart contracts are reliable and secure and can be deployed without any risks. You can check the ACE token audit report [here](#), and TEAM token audit [here](#).
