3 NFT Collections in the E-Commerce Module

This year, we gradually moved to a more modern format of our lots in this module—NFTs. This allows fans all over the world to receive a piece of their favorite athlete without having to wait for it to be delivered because NFTs arrive in your wallet in seconds. This does not mean at all that we will no longer have physical items in this module, but there will be noticeably fewer of them.

All NFTs are made on the Polygon network. Why did we decide to choose Polygon? It is very simple: high speed of transactions and their low cost. And you can buy it at the Rarible NFT Marketplace. Now let's take a closer look at the NFT lots that are already available for purchase.

The first NFT Collections with Alexei Sutormin

Aleksei Sutormin is a Russian football player. He plays as a midfielder, mainly a winger, for Zenit St. Petersburg and as a Russian national football team captain.

We presented the first NFT Collection. Eight NFTs are dedicated to the brilliant goals of Alexei.

You may reserve these items right now in the [E-commerce](#) module or buy them on a [Rarible marketplace](#). Half of the collected money will be transferred to Charity Foundation “Arifmetika Dobra”.

The second NFT Collections with Alexei Sutormin

In this Collection we presented his Titles in the NFT format
