

TokenStars April Report: In pursuit of the unknown and fresh

Spring is a great time to start something new. Therefore, in April we received new applications for the training sessions with our Pro players in both the tennis and poker business areas. You can also get one [here](#). Read about this and other news in our traditional digest.

- **NFT Collection in the E-commerce module**
- **Received a new application from a tennis player**

- **Contract with the new poker player**
- **Tennis and poker training sessions**
- **4 new articles on Medium**
- **Poker Tournament**

NFT Collection

The NFT Collection was produced in collaboration with our athlete Alexei Sutormin. We presented his best moments in the NFT format. Tokens made on Polygon network.

Aleksei Sutormin is a Russian football player. He plays as a midfielder, mainly a winger, for Zenit St. Petersburg and as a captain of the Russian national football team

We have five copies of each NFT so that everyone can get a piece!

You may reserve these items right now in the [E-commerce](#) module or buy them on a [Rarible marketplace](#)

Half of the collected money will be transferred to Charity

Foundation “Arifmetika Dobra”

Received a new application from a tennis player

The scouting module keeps attracting new talented players to

TokenStars! We're pleased to welcome [Roman Kazantsev](#)! Roman is 17 y.o. tennis player from Russia. Check out his [ITF Profile](#)

Roman Kazantsev

At this moment, his profile is being assessed by the TokenStars experts. If their verdict is favorable, we will announce the new voting.

Contract with the new poker player

[Yauheni Vasileuski](#) joined our scouting system and was approved by the experts. Now we can finally announce that the contract is signed and Yauheni is officially part of our poker team! His ROI is 30%. We hope that this cooperation will be fruitful for all parties.

Yauheni Vasileuski

Tennis and poker training sessions

[Togan Tokac](#) held a training session with a member of our community. The training took place in Istanbul, at Togan's home

court. He impressed our participant with his skills and showed him a couple of tricks of a professional game.

Togan Tokac and Denis

This is what Denis said at the end of the training:

“I enjoyed the training session. Togan drew my attention to many things that need to be worked on. He is an excellent player, and I think he has a great future in tennis.”

You can sign up for a training session with Togan Tokac in the [fan communications](#) module. You will be able to agree on a suitable time for you and inform the coach in advance what details of the game you would like to understand better.

Denis Puisha held a poker training session for a member of our community. The participant has been playing poker for half a year. He already knows a lot about this game. He won prizes at small stakes and he already has experience in cash games.

Training statistics:

- *Duration: 1 hour 20 minutes*
- *Tournament type: Sit and Go*
- *Profit per session: 38% of the bankroll*

Denis analyzed the most difficult hands, helped to improve the pre-flop game, gave advice on correct betting, and also taught the player how to make triple raises correctly.

The training was productive because our participant not only received a lot of useful advice but also won some money!

How scammers use celebrity names to swindle money — popular schemes

Various fraud techniques are one of the most prevalent ways for cyber thieves to steal money. As a result, there are lots of options for speculation, ranging from the spread of phishing messages claiming to be linked to COVID-19 vaccinations to reports of getting a massive inheritance from a long-lost family. Methods in which cybercriminals use the names and faces of celebrities to extort money from devoted fans are also prevalent.

Results of the Scouting Module for 2021

The talent scouting module implements platform-based interactions between TokenStars, talent scouts, and token holders who have volunteered to become Analysts. TokenStars decentralizes the talent sourcing process to ensure a high-quality flow of candidates. Unlike traditional agencies with a limited number of in-house scouts,

TokenStars creates a Global Scouts Network, encouraging scouts with well-balanced stimuli to bring the most talented players to our platform.

Results of the E-Commerce Module: from the beginning until today

We successfully launched the “E-commerce” module on our platform in November 2019. Now you can get exclusive items from TokenStars and our players like unique merchandise, created in collaboration with TokenStars athletes, autographed items — equipment, books, etc., tournament tickets or locker room passes.

You can buy all these items for ACE or TEAM tokens. Visit the “E-commerce” module and buy rare items from our players!

Poker Tournament

On Sunday, 3th, TokenStars held the 12th free-entry poker tournament. It took 1 hour and 47 minutes to define the champion.

Twelfth participants competed for 30,000 TEAM tokens, and only one of them won the prize:

1st place — 30,000 TEAM tokens
