Tennis games against Veronica Kudermetova

In summer 2019 we have conducted 2 training sessions with Russia’s top tennis player Veronica Kudrmetova. Her personal fans bought “a ticket” to the event on the “Fan Communications” Module for ACE tokens. They had a chance to train with Veronica and her coach Sergei Demekhin and then compete with her in a short match. Watch the highlights of [1st](#) and [2nd](#) training sessions!

Bounty contests to support our stars

In April 2019 we have announced our “Bounty Fan Clubs” Module. The module gives fans a unique opportunity to support their fans by completing their special tasks. In one of the contests, Klauss De Mello asked his supporters and TokenStars users to

design a banner and an author of the best one received 20,000 TEAM tokens. In October 2019, Veronica Kudermetova conducted a contest where her fans had to post tennis photos with #veronikatokenstars hashtag. The owner of Veronica's favorite picture received gifts from Kudermetova and ACE tokens.

E-Commerce Module

You do not have to participate in contests or auctions in order to get personal items from celebrities. With the advent of the E-Commerce Module, you can just purchase them with ACE and TEAM tokens. Such items as match-worn shirts of Alexey Sutormin or cap of Veronica Kudermetova regularly appear on the module so follow our news and do not miss your chance to purchase them.

In October 2019, we have started a new tradition! Everyone had a chance to play with members of the TokenStars poker team and even to win prizes! Our players participated in freeroll tournament with TEAM tokens prizes alongside with common players and fans all over the world. Of course, it is not so easy for average players to
