

# TokenStars Montly Report: What May Flowers Were Brought By April Showers?

## What May Flowers Were Brought By April Showers?

This month we were focused on growing the adoption of ACE and TEAM our tokens as well as on creating new forms of communication between players, fans and token holders.

- ✓ **ACE** and **TEAM** listed on the new exchange.
- ✓ **Crypto charity auction** with an **exclusive lot** from Veronika Kudermetova held successfully.
- ✓ **Fan Communications** module is released.
- ✓ **First poker training** from TokenStars received great feedback.
- ✓ **Siberian Wellness** company collaborated with TokenStars and Veronika Kudermetova.
- ✓ **Two new players** joined TokenStars scouting system.
- ✓ TokenStars community participated in **Ice Hockey World Cup 2019**.

### **ACE and TEAM Listed On The New Exchange**

The main news of the month was a new listing: both ACE and TEAM were listed on [BitRabbit](#) exchange (\$50-100 million of daily trading volumes). We wanted to provide token holders with a convenient way to trade both ACE and TEAM on the same platform, and we're glad that this goal is achieved. BitRabbit is a reliable and secure platform with a focus on Asian markets, so we were glad to negotiate cooperation with them.

Our listing strategy is aimed to gradually increase the token liquidity and community trading involvement. To boost the interest in our tokens and increase the awareness of TokenStars, we also created engaging [activities](#) with BitRabbit.

### First Signed Player Provided Exclusive Lot For Auction

[Veronika Kudermetova](#) provided a great lot: a professional Wilson tennis racquet with which she won WTA Guadalajara 125K in Mexico, and 3 tennis balls with her personal signature. **11 bids** were made in [the auction](#), the winner made a bid in the amount of **3735 ACE** tokens (approximately 127 USD).

The funds were sent to Konstantin Khabensky Charity Foundation to support, which provides care for children with cancer and other serious diseases of the brain.

## Fan Communications Module Is Released

This month we took a huge step forward in building relationships between players and fans by launching a [Fan Communications](#) module. This module will make all the interactions between players, fans and token holders a lot easier and help us to create new opportunities for fans and token holders to cooperate with their favorite players on TokenStars platform. In Fan Communications module we'll publish new activities from our signed players and each ACE or TEAM token holder will have the opportunity to participate in it.

### **First Personal Training From TokenStars Held Successfully**

First brand new activity in the Fan Communications module was a personal training with our signed player and also head poker coach [Tobias Schaaf](#). This offer was bought very quickly and the personal training has already taken place. In 1.5 hours, 6 tournaments have been played, in 4 of which the player reached the final table, and even won 1 of them.

After each tournament, Tobias analyzed the game, noticed the mistakes that the player made and explained how to avoid them in the future. Tobias also shared his theoretical lectures on the topic of playing in Sit and Go tournaments and a table of starting hands. The best thing is that the user is satisfied and, according to his words, significantly improved his skills.

## International Company Started Collaboration With Veronika Kudermetova

This month [Veronika Kudermetova](#) started to cooperate with **Siberian Wellness** - rapidly developing company that operates in 65 countries. Siberian Wellness is a company with more than 20 years of history, specializing in the production of products for a healthy lifestyle. We were glad to organize this interaction and we have every reason to believe that this is only the beginning of a long-term and mutually beneficial partnership.

## New Players In Scouting System

[Scouting module](#) keeps attracting new players to TokenStars, and we're glad to see that our token holders continue to support new promising athletes. Last month Tobias Wegmuller (poker) and Jasza Szajrych (tennis) joined our platform and they successfully moved to the negotiations stage.

[Tobias Wegmuller](#) is a professional poker player from Switzerland. Tobias has been playing poker for about 10 years, in his career he played over 35000 tournaments mainly on PokerStars. In that time, he won over **175,000\$**.

SUPPORTED BY COMMUNITY

### TokenStars Community Participated in Ice Hockey World Cup 2019

This May we celebrated 1 year anniversary of [Predictions module](#) and let our community choose the theme of the contest. Football Week and Hockey World Championship scored most of the votes, but hockey won with a small margin. This tournament gave us a few unexpected turns and almost no one predicted that the team of Finland would be the winner. It's always great to see that more and more users invite their friends to participate in our predictions contest and that the audience constantly grows.
