

FAN COMMUNICATIONS MODULE

In May 2019 we have introduced [**“Fan-Communications” Module**](#). It was designed to let supporters get closer to the stars. Now fans can use their ACE and TEAM tokens to communicate with sportsmen and get a unique experience with their favorites involved. So far we have created many different activities:

- ✓ 2 tennis games against one of the best Russian tennis players Veronica Kudermetova
- ✓ 3 personal training sessions with our poker experts have been held
- ✓ Video Chat with Aleksey Sutormin

Tennis games against Veronica Kudermetova

In summer 2019 we have conducted 2 training sessions with Russia’s top tennis player Veronica Kudrmetova.

Her personal fans bought “a ticket” to the event on the “Fan Communications” Module for ACE tokens.

They had a chance to train with Veronica and her coach Sergei Demekhin and then compete with her in a short match. After the first training in June, we have received many requests from the community to conduct one more training. Luckily Veronica had one more free day in July and we sold one more training with her.

Watch the highlights of [1st](#) and [2nd](#) training sessions!

3 personal training sessions with TokenStars poker expert

Some events are just for fun but we also have educational activities. 3 members of our community already had a private coaching session with Tobias. Tobias is our main poker expert and one of the best online players in Germany. He developed various plans for training sessions for players with different skill levels. He showed them some tactics and even helped to win a couple of Sit and Go tournaments. A training session is available now to apply so if you want to upgrade yourself in poker you are welcome to join the next training.

Video Chat with Aleksey Sutormin

In December 2019 we have introduced a brand new type of activity on our platform. Now you can have a video call with a famous Russian football player Alexey

Sutormin. It is a great way to make a birthday present for your friends and relatives.

Soon we will introduce new activities. Stay tuned!
