Football PRO joined TokenStars

TokenStars cooperation with the football industry is in full swing and we were overwhelmed to sign a contract with FC Zenit player [Alexey Sutormin](#). Alexey is a talented winger, who joined FC Zenit during summer 2019. He was the most shining player in his previous club FC Orenburg, and we have no doubt that this cooperation will be beneficial for both sides. TokenStars will provide marketing assistance for Alexey and attract new sponsors, while Alexey is preparing new activities for his fans, followers, and TEAM token holders.

[Jasza Szajrych](#) - 15 years old talented tennis player from Poland. Jasza works hard to achieve great results: last autumn he participated in **3 ITF finals** and won **ITF Junior Circuit** in singles. He started to play at 8 and since then he is constantly developing his skills.

[Santiago Guitart](#) is a professional poker player from Argentina. He has impressive experience with 44713 played tournaments and 48000\$ profit. Our experts highly evaluated his low-stakes game, and we're sure that our coaching will help him to **achieve much more**.

Signed players conquer new heights

It's always nice to watch new achievements of players from the TokenStars team. This month two of them climbed a notch: Valeriya Olyanovskaya won her first prize money in ITF Georgia and Tobias Schaaf won 8.390 EUR in his first live tournament - EPT in Barcelona. It's a highly important step in their careers, and we wish them further success.

Scouting doesn't lose momentum

One of our key modules keeps attracting new players to our platform and we're more than happy to collaborate with new promising players. Last month, we received applications from two poker professionals: Santiago Guitart and Rick Milton.

eSports contest won the community's heart

In August we decided to dedicate our predictions contest to worldwide famous The International 2019. We held similarly contest last year and were happy with the results. This year cybersports contest received even warmer feedback: the number of participants visibly increased and community members asked us to hold such competitions more often. As always, the **top 100** contestants shared the prize fund of **5000 TEAM** tokens, and the winner of the predictions contest received **500 TEAM**.
